

## **Environmental & Sustainability Policy**

Newmarket Plant Hire Ltd accepts responsibility for the harmful effects its operations have on both the local and global environment and is committed to ensuring the best environmental practices are implemented within the Company.

To fulfil our objectives we will undertake the following:

- Comply with all relevant environmental legislation.
- Minimise waste by evaluating operations and ensuring they are as efficient as possible.
- Minimise toxic emissions through the selection and use of its fleet of vehicles.
- Minimise emissions of noise, air pollution and waste products.
- Minimise the risk to the public from any acts or omissions during its operations.
- Responsibly source plant and equipment by partnering with suppliers and manufacturers to continually search for the best available standards.
- Maintain equipment to maximise effectiveness and minimise fuel consumption.
- Maintain equipment to minimise environmental incidents and pollution.
- Promote recycling as far as is reasonably practicable within the Company.
- Maximise re-use and recycling opportunities when equipment is disposed of.
- Dispose of waste in a responsible way through approved contractors promoting recycling wherever reasonably practicable.
- Provide training and information to all persons working for or on behalf of the Company in environmental matters appropriate to their job.
- Continually monitor the environmental impact of its operations.
- Openly co-operate and communicate with the public, relevant neighbours, government, regulatory authorities and all other interested parties to improve the environment for all concerned.

This policy will be reviewed regularly and is available to all persons working for and on behalf of the Company, customers, suppliers, and members of the public as requested.

Signed,  Ashley Tarrant - Managing Director
